Dear Krystyna,

The names of the architects in the Becton competition are:

Ashton Raggatt McDougall Pty Ltd (Storey Hall, St Kilda Town Hall & Library, etc)

Billard Leece Partnership Pty Ltd (employed by Becton on original feasibility investigations)

Denton Corker Marshall (101 Collins St, Jeff's Shed, new museum, and just about everything else at the moment)

Katsalidis Architects (Melbourne Terrace (near Vic Market), St Leonard Ave (St Kilda) apartments, Republic Tower project)

Robert Peck von Hartel Trethowan (Parliament House renovations proposal, new City Square, Becton's 333 Collins St in association with - see below, and were also the authors of the City of St Kilda 20th Century Architecture Study)

The Texas (USA) firm of architects whose name I can't remember properly - it's **Nelson** something something - who designed 333 Collins St for Becton in association with RpvHT.

I hope that's useful to someone.

Best wishes,
